GOD'S GARDEN

2018 SUMMER CAMPS

June 4-7: Adventure to Outer Space

Prepare for blast off as we adventure into space. Join us this week as our aspiring astronauts complete space missions and orbit the moon. Children will rocket through space and learn about the planets, phases of the moon, gravity, weightlessness, space stations, and more. Children will work on problem solving, team work, collaboration, communication, and emotional regulation.

June 11-14: Discover Science

Put on your lab coats, pull out the test tubes, and let's get messy! This week kids will discover the exciting world of science through some fun hands-on experiments. Children are free to smear, squeeze, splatter, and otherwise explore artistic possibilities through science.

June 18-21: Spend Your Summer At Sea

Dive under the sea and explore the Ocean. Sand castles, Mermaids, shells, fish, whales, and did we mention SHARKS abound as we explore life under the ocean through nature, craft projects, and storytelling. You will not want to miss the adventures we explore this week - from the beach to the deepest parts of the ocean!

June 25-28: Explore All Things Dinosaurs

Join us for a week of Dino-diggin' fun as we explore all things dinosaurs. Has your child ever wanted to see how big a T-Rex footprint really is? The children will learn all about these prehistoric animals through hands on exploration and science discovery. They will read, create, observe, dig, measure, stomp and dance their way through many fun dinosaur activities.

July 2-5. No Camp This Week

In Celebration of the 4th of July Holiday, there is no Summer Camp this week!

Camps are for children ages 2-years-old to 8-years-old. Advanced Registration is required. Children **DO NOT** need to be potty-trained to attend. Space is limited.

July 9-12: It's a Pirate's life for me!

Ahoy Mateys! Climb aboard ship God's Garden as we set sail into an adventurous week. There will be storytelling, searching for buried treasure, and even some walking of the plank!
